

Quick Installation Guide

H.264 Megapixel Surveillance Camera

MODEL NO. TL-SC3430

Package Contents

(*The pictures are for reference only.)

System Requirement

The following operating systems are supported:

- Windows XP
- Windows Vista
- Windows 7
- Windows 8
- Windows 2000
- Windows 2003
- Windows Me
- Mac
- Linux

The following browsers are supported:

- Microsoft Internet Explorer
- Firefox
- Safari

1 Warning Before Installation

- Do not keep the Camera exposed to direct sunlight.

- Do not place the Camera in high humidity environments such as in a kitchen.

- Do not place the Camera where there are high temperatures such as near an oven.

- We recommend to mount the camera where objects often pass the camera from the sides, and the camera towards the door or passage is much better, see the illustration below:

2 Physical Description

Item	Description
Power LED Indicator	<ul style="list-style-type: none"> Solid: The electrical power is on. Off: There is no electrical power.
Network LED Indicator	<ul style="list-style-type: none"> Solid: The network port is linked, but there is no activity. Blinking: There is traffic between the Camera and the network. Off: There is no network connection.
Reset Button	<p>Step 1: Re-power on the camera and wait for at least 45s until it restarts up normally.</p> <p>Step 2: Press the button for more than 10s, then it will be restored to factory defaults after rebooting automatically.</p>

3 Hardware Connection

- Connect the camera to the LAN network (Router or Switch) via Ethernet cable.
- Connect the power adapter cord to the DC In jack.
- Plug the power adapter into the power outlet.

Note: Before proceeding, confirm that your PC is connected to your router and can access the Internet. Also confirm that your router's DHCP feature is enabled. (Most routers have DHCP turned on by default.) Refer to the operating instructions included with your router.

4 Software Installation

- 1 Insert the provided Resource CD into your CD-ROM drive.

- 2 The Setup Wizard will automatically pop up on your computer's screen, then click "Intelligent IP Installer" (you can click the installer's manual later for advanced setting guide).¹

- 3 The Intelligent IP Installer window will appear. Please click "Next" to continue the program.

- 4 Select the optional program as needed. The default setting is highly recommended. Click "Next" to continue.²

² If you want to be able to use MSN view, please select the last option.

- 5 Setup is completed. Click "Finish".

5 PC Configuration

We take IE in Windows XP for example, it is similar in Windows Vista/Windows 7.

- 1 Open IE browser. Click "Tools", then "Internet Options...".

- 2 Click "Security" -> "Internet" -> "Custom Level...". Find the item "Download signed ActiveX controls" and make sure it is "Prompt", then click "OK".³

- 3 Click "Security" -> "Local Intranet" -> "Custom Level...". Find the item "Download signed ActiveX controls" and make sure it is "Prompt", then Click "OK".³

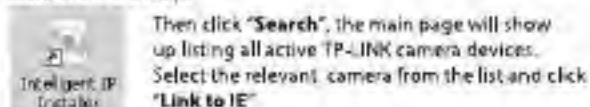

Notations:

1. If the CD does not automatically run with the installation window appearing, find the CD drive in the "My Computer" space and run it directly there.
2. A warning page will pop up automatically if the MSN program is not installed in your computer. You can reinstall the MSN Plug-In after the installation of the MSN.
3. The item "Download signed ActiveX controls" is "Prompt" by default, you can change it after the whole configuration.

6 Access the Camera using IP Installer

- 1 Click the icon of Intelligent IP Installer (installed in step 4) on the computer's Desktop.

- 2 Enter your Username and Password to login to the IP Camera. (Default is admin / admin)

- 3 When accessing the IP Camera for the first time, a yellow information bar appears below the address bar, click the information bar, and select "Install ActiveX Control...".

- 4 Click "Install".

- 5 Live video displays in the centre of your web browser.

For further specific applications, please refer to the User Manual on resource CD. Moreover, Application Guide on resource CD will guide you to set up some typical applications step by step, so as to help you become familiar with the camera immediately.
